

I signed up for the DNC list a few months ago, and it has been just unbelievable the difference it has made for my family. We always got calls at dinnertime and in the evening when we did not want any, and often had to be outright rude to get them off the phone. If I want to buy something, I will go buy it. Please DO NOT change the law in NJ. We will be bombarded by calls day and night. I once tracked calls for a week and found that we had gotten an average of FIVE calls per day from telemarketers! That is outrageous and thankfully, that does not happen anymore, and I plead with you not to change NJ's law.

Sincerely,

Maryellen Voigt
